Friends of Little Salt Spring:

My husband, James H. Wallace, Jr. (Jim) and I worked for General Development Corporation during the late 1960s and early 1970s. Jim worked in corporate relations, New Vistas Magazine, golf tournaments, etc. His favorite and pride and joy was Little Salt Spring! Jim worked for many years being the “point” guy at GDC and worked very closely with Carl Clausen; they both loved LSS.

Jim passed away in June of this year. You can guess that as a photographer he left 1000s upon 1000s of photographs, slides and negatives-his life’s work. After finding the trove of LSS slides, negatives, recorded cassettes, photos, a large [animal] bone, etc., I googled LSS to perhaps find the person at the UofM that was overseeing this project, I found a better option - Friends of Little Salt Spring!

I will be gifting Friends of Little Salt Spring the following:

- Slides (100s)
- Negatives
- Cassettes – 60 ±
- Magazine inserts/articles
- One bone (I know there is another bone, but haven’t located it as yet)

I realize that much of this might be duplicates, of no interest, etc. but leave it to the Friends to decide.

Jim had not known of the existence of the Friends, he would have been to every meeting, explained and coordinated with you all of the items I am giving you. Needless to say, the way he loved Little Salt Spring he would have started talking and never stopped!

Thank you all for being there and making a large decision much easier for me.

Sincerely,

Jolleen A. Wallace
